

Comodo Korugan Unified Threat Management FAQs

Why do I need a Korugan UTM solution?

There are multiple reasons for choosing Korugan UTM solution:

- ◆ Single license to cover all security services
- ◆ Ease of management through Korugan Web Based UI
- ◆ Competitive Pricing
- ◆ No need for additional logging and monitoring appliance
- ◆ Fastest UTM solution for SMB segment

What can be done with Korugan UTM?

Korugan UTM can enable administrators to:

- Set policies for user, group, zones or AD users
- Manage web filtering policies based on millions of websites
- Secure network infrastructure against intrusion based attacks
- Provide HotSpot services
- Create spam free environment
- Prioritize traffic based on policy, user or groups and set bandwidth limitations
- ◆ Create VPN tunnels and create VPN policies
- ◆ Monitor all network traffic without requirement of any additional monitoring application

How does licensing work?

With Korugan UTM, there's a single type of licensing which includes all updates and services.

What are the licensing options for Korugan UTM?

- ◆ One license per appliance
- ◆ Licenses can be 1 year, 2 years or 3 years with bundled 8x5 support.
